## Product Description

### Product Description

<b>MASUMA No.</b>	MPU-701
<b>Part Name</b>	Fuel pump Masuma 100L / h, 3kg / cm2 mesh MPU-001
<b>OEM No.</b>	1510,15100-50G00,15100-50G10,15100-57B01,15100-57B2V,15100-58B00,15100-58B10,15100-60G00,15100-60G20
<b>Maintenance</b>	Warranty 12 months or 30 thousand kilometer
<b>In stock</b>	In stock

Masuma fuel pumps are manufactured on ACDelco assembly lines & —; OEM supplier of General Motors fuel pumps. They are distinguished by high build quality, stable performance and durability. Strict quality control implemented in production guarantees a minimum percentage of rejects. Design features Masuma fuel pumps are equipped with a quality check valve and bypass valve. The check valve maintains the pressure in the fuel line after the pump is turned off, preventing fuel from flowing into the tank when the car is parked, which improves engine starting. The bypass (safety) valve protects the pump from overload in the event of a pressure regulator failure; it is also required for vehicles without a return fuel line. The technologically advanced electrical part of Masuma gasoline pumps provides high performance and fuel pressure with minimal internal resistance and current consumption. Coarse filter Most Masuma gasoline pumps already have a coarse fuel mesh, which you don't have to buy separately. Replacing the filter mesh is mandatory when installing a new fuel pump. Fuel pump warranty 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma & —; is a global brand of spare parts, components and consumables for cars. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. Company strategy & —; to offer consumers the best ratio of reliability and price of spare parts. All products are manufactured to order, technology and under the control of the parent company Masuma Auto Spare Parts Co., LTD (Tokyo, Japan) at dozens of modern factories located in East Asia.

**MASUMA**

# MASUMA FUEL PUMP

Excellent quality, close to the peoples  
price, long service life care for your  
car.

High  
security

Boost  
motivation

In-situ  
installation

Stable  
and durable

# MASUMA FUEL PUMP #

## Does your car have these problems?

Seriously affect the driving experience

# Guaranteed continuous fuel supply to the engine !

A fuel device that continuously sucks fuel from the fuel tank and provides a specified pressure and flow to the fuel system

## Brush

MASUMA use **SCHUNK ( Germany )** and **TRIS ( Japan )** brushes and commutators.

## Commutator

MASUMA commutator is with **0.8% Silver(Ag)**, More proportion Ag make the pump performance more stable life time more long.

## Impeller

impeller with **100% original PPS**, and control impeller thickness with lapping machine import from Koreav.

# Make product performance more excellent

The "heart" of the fuel supply system  
of the EFI engine.

# MASUMA FUEL PUMP #

# Why choose us?

Seriously affect the driving experience

# Boost power and accelerate smoothly #

Selected Steel

Excellent material  
and high quality

Welding process  
high standard

CERTIFICATE  
Guarantee of authenticity
