Product Description

Product Description

MASUMA No. ML-9034

Part Name Strut (link) stabilizer

OEM No. 488300R, 4883042020

Maintenance Warranty 12 months or 30 thousand kilometer

In stock In stock

The stabilizer legs (links) of Masuma are distinguished by their high ball joint strength. This is due to a special pressing method during manufacture - with the filling of the hinge coupling with polyoxymethylene polymer (POM 500P). The special technology of mirror processing ensures the surface roughness of the ball pin is no more than 0.4 microns, which significantly increases the life of the hinge. Stabilizer struts (links) are guaranteed for 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma is a global brand of auto parts, components and consumables. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. The company's strategy is to offer consumers the best ratio of reliability and cost of spare parts.
