The task of the bump stop is to elastically limit the stroke of the rod when the shock absorber is fully compressed, protecting its mechanism and softening the shocks coming from the wheel to the car body. Masuma bumpers are manufactured from closed cell urethane foam, a soft and durable polymer that effectively dampens shock and vibration. The shock absorber bumpers are warranted for 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma is a global brand of auto parts, components and consumables. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. The company's strategy is to offer consumers the best ratio of reliability and cost of spare parts.
