Masuma silentblocks are rubber-metal hinges that connect almost all major suspension parts of a car. Their task is not only to ensure the mobility of the levers and rods, but also to absorb shocks coming from the road. Therefore, Masuma does not use polyurethane and other hard polymers, but produces rubber-based silent blocks, as provided by the design of the machine. The engineering office of Masuma managed to find the optimal rubber compound - strong and elastic at the same time. The modern technology of joining metal and rubber in Masuma silent blocks ensures a solid service life. The silent blocks are guaranteed for 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma is a global brand of auto parts, components and consumables. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. The company's strategy is to offer consumers the best ratio of reliability and cost of spare parts.
