A distinctive feature of the Masuma clutch disc friction linings is the production of rivet holes at the baking stage. in special molds. Notches on the surface contribute to better self-cleaning of the disc from wear products and smooth adhesion of the clutch at the beginning of the movement. Ellipse-wound pads increase knot wear resistance and guarantee up to 10 million cycles. Every Masuma clutch disc undergoes mandatory factory balancing and routine tests: geometry, torque and hysteresis measurements. Clutch discs are guaranteed for 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma is a global brand of auto parts, components and consumables. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. The company's strategy is to offer consumers the best ratio of reliability and cost of spare parts.
