

## MASUMA P6321 Rear Shock Absorbers for MITSUBISHI PAJERO 344300 4162A016 4162A023 MR353149

Our Product Introduction

for more products please visit us on masumajp.com

### Basic Information

- Place of Origin: Guangdong, China
- Brand Name: MASUMA
- Minimum Order Quantity: 2 pieces
- Price: Negotiation
- Packaging Details: carton

**MASUMA**  
 AUTO SPARE PARTS

### Product Specification

- Model: PAJERO IV (V8\_W, V9\_W), PAJERO III (V7\_W, V6\_W)
- Year: 1999-2007, 2006-, 2005-2006
- OE NO.: 4162A023, MR418049, MR554291, MR554330, MR566275, MR566276, MR594956, MR990539, 344300, 4162A016, MR508165, MR554708
- Car Fitment: MITSUBISHI
- Reference NO.: 30-B39-A, 19-142258, 24-062725, 19-184142, 82-2506, 24-151375, N5525019G, C330-59, 81-0995, LIP179908, 061587GB, 316 323, 1214-0005-SX, 344 300, 10 4476, 911250, 554 317, .2223G, 33 4476, AG 11510
- Warranty: 12 Months, Warranty 12 Months Or 30 Thousand Kilometer
- Car Model: JAPAN
- Product Name: Suspension Shock Absorber

Masuma shocks are manufactured to original OEM specifications. Masuma struts and shock absorbers are not tuning, but a quality replacement for original parts with additional improvements. The stems of Masuma shock absorbers have micro-notches that help lubricate the stem packing. This extends the life of the oil seal and the entire shock absorber. Shock absorbers are guaranteed for 12 months. Wherever you bought or installed a part, within a year you have the right to return it by simply providing him with a receipt or other document confirming the purchase date and price. Even if you are not a certified auto mechanic and installed the part yourself in your garage, just keep your purchase receipt and, if a problem arises, you can always return the part. Masuma is a global brand of auto parts, components and consumables. The main specialization of the brand: resource parts for post-warranty service of Japanese cars. The company's strategy is to offer consumers the best ratio of reliability and cost of spare parts.

**Shock absorber  
( structure chart )**

**Piston valve assembly  
( Schematic diagram )**

**Bottom valve assembly  
( Schematic diagram )**

It can restrain the vibration of spring and absorb the energy of road bump influence. It not only affects the riding comfort, but also affects the driving safety, and may cause the damage of other parts if the shock absorber is broken.

The shock absorber is a part need to replace regularly and it's service life is around 80000 km. Even if the shock absorber is not broken, it should be replaced, because the internal part of shock absorber has been worn and tear, it is impossible to judge whether the shock absorber is damaged from the product appearance. To avoid traffic safety issues, replace the shock absorber in time is necessary, and the shock absorbers need to be replaced in pairs to ensure the balance of the vehicle handling and the best driving performance.

#### How to check if the shock absorber needs to be replaced?

- ① Park the car on a flat road, press both sides manually or press the bumper hard with the foot id open ( or press front part of the car ), then release hands. If the vehicle stops after rebounds in 2-3 seconds, shock absorber is regarded as to be replacement needed.
- ② When suddenly brake the car at low speed, the car shakes violently, and the human body feels uncomfortable, shock absorber is highly probably broken.
- ③ The car stops after driving about 10km on the road with poor conditions, if you don't feel any temperature even cold by hand touch the housing of shock absorber, that is to say, shock absorber is not working normal due to no resistance internal itself.

# SHOCK ABSORBER?

## What advantage

1. No noise
2. No oil leakage
3. Durable and easy to control
4. More comfortable and stable

Stable Driving

No Oil Leaking

Anti-shaking

Noise Free

High  
Temperature  
Endurance

Long Lasting

# SHOCK ABSORBER #

# Are you worried about the quality ?

Abnormal Noise?

oil Leaking?

Turning Bend?

## Shock Absorber ( structure chart )

# Less Noise And More Comfortable !!

Quiet design only for your comfortable experience

Comfortable  
driving

Increase braking  
distance

Improve stability  
and security

# Reinstall in Situ Fit Perfectly

---

## Product Details

### HARDWARE METAL

High-strength piston rod, strong and wear-resistant

### BRAND CODE

MASUMA product code identification

### INSTALLATION

It can be replaced directly without any change
